To: All L.R.B.O.I. Water Users  
Cc: Gary Lewis  
Date: April 11, 2017  
RE: Water Tower Maintenance

---

The water tower will be out of service for 3-5 days beginning May 15, 2017 for inspection and cleaning. Water pressure will be maintained throughout the cleaning and inspection service. There should be no disruption of normal household or commercial service at this time.

Fire suppression will be limited however, and large users of water are prohibited at this time. Large use of water can be defined in accordance with the LRBOI Utility Ordinance as;

*General Rules With Respect to Large Users of Water*

1. Before proceeding with the purchase of any equipment which will necessitate the use of large quantities of water within short periods of time, the Utility shall be consulted for advice, as well as the Planning Department of the Tribe, as to the best method of installation and for information concerning the conditions under which the water will be supplied to the premises of the customer.

2. In general, the Utility reserves the right to limit the size of service connections or opening through which its service is furnished for filling storage tanks, hydraulic equipment, private fire service, or other classes of service capable of drawing relatively large quantities of water and thereby causing undue fluctuations of pressure in portions of the system.

If you have any concerns or questions please call the office.

  
Gary Lewis, Utilities Supervisor
